

# The CANDIDO Annotated Vol 2 #1

PRICE 10 cents per issue

This is the medium of general communication of the DraftComm; an adhoc group trying to find the Holy Grail of DipOrg--the right means to make it work. Not only is the committee open to all interested persons and the CA available to all interested persons, but we strongly desire to hear from you all. Everyones thoughts will be completely aired. However you will only get the CA if you send Bob Johnson (Box 134, Whippany, NJ 07981) the dime per issue.

This particular issue will go to a large number of people free as I intend to include it with my zine's next mailing. I hope the recipients will pass on the word, share their copy and/or otherwise get people to know of this zine.

It has seemed that not <sup>one</sup> of the past efforts to get a good DipOrg off the mark has come near succeeding. This does not mean we should give up hope. Let us get some benefit from these past mistakes. In the near future, there should be a flyer sent out to nearly every postal Dip player. While this is not a product of the DraftComm, it is expected to help in the formation of the DipOrg and the Constitution.

The PIC, even tho a failure itself, may still serve as a basis for the new constitution. It has a preamble and five articles. The first article deals with membership, the next with the governing organization. The third covers means of voting and making motions; the fourth is admen~~t~~ments and the last is a catchall. The preamble of course deals with the purpose of the org.

I should like first to get as many opinions as possible as to the method the con should be divided if this one above is unacceptable. I should also like to get from all of you out there, your ideas on membership rules---classes of membership, conditions of membership, benefits and duties, etc.

I should receive this from you all by March 21st, in order that I may get the next issue of CA out on the 27th. Thereafter, I will try to publish monthly, if I have sufficient response. Now, we all have to work together if anything of lasting value is to be accomplished. You can let George do it, we might wind up with the disasters we have become all too familiar with. You all have your opportunity to be heard--make it count. For the sake of it, I should like to know why you feel there should be or not be a DipOrg.

Any or all people have the right to publish this CA to be sent out, only if they Print the whole of the above intact.

This issue is being sent to the following people:
